STATE OF SOUTH CAROLINA
BEFORE THE PUBLIC SERVICE COMMISSION
DOCKET No. 2013-150-E

IN MATTER OF: South Carolina Electric & Gas Company's Annual Request for Revised Rates with connection to Petition of South Carolina Electric & Gas Company for Updates and Revisions to Schedules Related to the Construction of a Nuclear Base Load Generation Facility at Jenkinsville, South Carolina	PETITION TO INTERVENE
---	------------------------------

I, Joseph Wojcicki, being the SCANA shareholder, hereby petition the SC Public Service Commission ("PSC") to intervene according to the PSC Rules and in the form presented in Pro se ... Guide in above case / matter.

1. The contact information:
JOSEPH WOJCICKI
820 East Steele Road
West Columbia, SC 29170-1125 E-mail: joe4ocean@aim.com
2. My intention is to help PSC in "[Our] Mission: A Fair, Open, and Efficient Regulatory Process..." as well as proceed with construction of Units 2 and 3 (AP 1000) to receive electric energy production in safe conditions for entire 60 years of expected reactors' life. In present situation there are too many unanswered questions and unfinished solutions which keep general public in the fear that this investment is at least imprudent or even dangerous.
3. My residence (for over 25 years) is in less than 25 mile air distance from Jenkinsville location of SCE&G Nuclear Generation Station / Facility. It is, *inter alia*, the basic requirement (living in less than 50 mile distance from the reactors) from Nuclear Regulatory Commission for the standing.
4. There are more factors allowing/supporting Wojcicki to act as an intervenor in this case than had Mr. Tom Clements who received such opportunity by this Commission (Order Number 2011-264) and now could intervene as an individual [Pro se] in Duke Energy similar project in SC.
5. SCANA recognized Wojcicki's right as shareholder and even its CEO Mr. Marsh answered his questions nicely and clearly at the last shareholders' meeting.
6. Any objections to this Petition from SCE&G /SCANA Legal Team would be a serious breach of general rules of fair process and a proof of hiding possible errors, failures, and facts of PSC/ORS and public misleading.

7. Please make a notice that all questions and problems signaled by Wojcicki in last year SCE&G hearings (inter alia doc #239633 Protest-Memorandum dated 2012 Oct 3) have no answers.

8. SCE&G /SCANA Legal Team proved ignorance of findings in serious lessons from Chernobyl and Fukushima disasters. Any objections from them would be the base for PSC Order Rule to Show Cause i.e. real motives of blockade shareholder's right to intervene etc.

CONCLUSION.

I hope that this Petition will be accepted; all rights and privileges will be granted, especially to serve in the behalf of the national economy and security.

Respectfully submitted,

Joseph Wojcicki – MSEE, consultant in BYPAS INTERNATIONAL
